

TURNER[®]

Mounted Bearings

Spherical Series

Double-Lip Seals

Extra protection against contamination, but still allow high speed operation.

Metal ID Tag

Makes reordering easy.

Self-Aligning

Internally self-aligns to accommodate changes in shaft and machinery alignment for maximum bearing life.

Locking Collar

Use of mild steel collar ensures precision threads, maximizing setscrew grip.

Sturdy Housing

A one-piece cast iron housing has strength to handle tough applications.

Additional Features

- Bearing cavity is 33% factory-filled with Shell Alvania #2 grease.
- Has 1/8" NPT grease fitting.
- Accepts automatic grease dispensers
- Interchanges with:
 - Dodge[®] S2000
 - Browning[®] SPB1000
 - Linkbelt[®] PB22400
 - Rex[®] ZA2200
 - SKF[®] SYR
- Available in Non-expansion (fixed) and Expansion (floating).
